COMPASSIONATE CARE YOU CAN COUNT ON

We understand how important quality of life is and how precious time becomes when you're facing a serious illness. At the point treatment is no longer a benefit, or a disease is beyond a cure, Hospice Care can make a world of difference.

Comfort, personalized care, peace of mind, and compassionate care at home is the guiding philosophy of hospice care. At Trellis Supportive Care we believe that however long a person has to live, every moment should be cherished. We focus on the patient's emotional and physical care while supporting the family every step of the way.
