VETERAN EQUINE THERAPY PROGRAM

Hope & Healing: Grief Support for our Heroes & their Families

This workshop offers support to veterans and their families who are grieving the death of a loved one or coping with advanced serious illness. Leaders will guide participants through experiences with horses, who naturally offer acceptance and nurturing. These moments will provide insights into the supports that are most helpful as you grieve and cope with change. All interactions with horses will take place on the ground (no riding) and in a safe, supported environment.
