

“IT’S ABOUT LIVING THE FULLEST AND MOST COMFORTABLE LIFE POSSIBLE, regardless of your medical diagnosis and treatment. A serious or even life-limiting illness can be managed so that living comfortably and fully is possible. Everyone facing a critical health challenge deserves a professional care provider by their side. Our Palliative Care specialists can be by your side with expert, compassionate and personal support so that you can focus on living.

— Michael Lalor, MD
Chief Medical Officer

A helping hand WITH HEART.

IF YOU OR SOMEONE YOU LOVE receives a diagnosis of serious illness, ask for a Palliative Care consultation and benefit from the highest level of guidance, medical assistance, and emotional support. Your Palliative Care specialist is an expert in easing pain and unpleasant symptoms associated with serious illness and side effects of treatment. Studies prove that having a palliative care not only improves quality of life—it extends it.

Working in partnership with your physicians, our compassionate, board-certified Palliative Care specialists focuses on giving patients emotional, medical, spiritual, and social support as they move through treatment. Patients seeking Palliative Care can visit our clinic on the Hospice & Palliative Care Center campus. For patients who are unable to leave their home, wherever a person calls home, a home visit may be arranged.

IT'S ABOUT *Feeling Better.*

EVERY PERSON FACING A SERIOUS ILLNESS hopes for as little pain as possible. Fortunately, with advances in modern medicine, physical suffering can now be almost entirely managed, and in some cases eliminated.

Our Palliative Care program focuses on symptom management for patients with life limiting illnesses—including cancer, heart failure, disease of major organs, or dementia. Palliative care can relieve pain and other symptoms and can be provided early in the treatment cycle, along with other curative therapies, in order to:

- ~ *relieve pain, nausea, fatigue, weight loss, breathlessness, depression, and anxiety*
- ~ *assist in making difficult medical decisions*
- ~ *ensure as much comfort and physical activity as possible*
- ~ *work along side other physicians to manage symptoms and improve quality of life.*
- ~ *facilitate discussions about your goals of care*

BENEFITS OF PALLIATIVE CARE
Emotional Support after a Diagnosis
Assistance with Making Medical Decisions
Alleviation of Pain, Discomfort
Anxiety and Depression
Evaluation of Medical Progress
Help in Reducing the Need
for Hospitalization

Live Fully.

LIVE COMFORTABLY.

IF YOU HAVE BEEN NEWLY DIAGNOSED with a life limiting illness, you deserve access to treatment that will bring you peace of mind. Whether you're experiencing pain or challenging symptoms from your illness, or your quality of life has been compromised, Supportive Care Partners can provide compassionate care that relieves pain, eases unpleasant symptoms, and improves your quality of life.

Your Palliative Care specialist will listen to you, help ease your symptoms and design a plan of care based on your goals. Please call us today at Hospice & Palliative CareCenter to learn more.
